

Agenda 2030 Assignment

Agenda 2030 - "Transforming our world: the 2030 Agenda for Sustainable Development" is a document written by the UN (United Nations) that outlines multiple goals to change in our world. The goals outlined are:

- Goal 1. End poverty in all its forms everywhere
- Goal 2. End hunger, achieve food security and improved nutrition and promote sustainable agriculture
- Goal 3. Ensure healthy lives and promote well being for all ages
- Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all
- Goal 5. Achieve gender equality and empower all women and girls
- Goal 6. Ensure availability and sustainable management of water and sanitation for all
- Goal 7. Ensure access to affordable, reliable, sustainable and modern energy for all
- Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
- Goal 9. Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation
- Goal 10. Reduce inequality within and among countries
- Goal 11. Make cities and human settlements inclusive, safe, resilient and sustainable
- Goal 12. Ensure sustainable consumption and production patterns
- Goal 13. Take urgent action to combat climate change and its impacts
- Goal 14. Conserve and sustainably use the oceans, seas and marine resources for sustainable development
- Goal 15. Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss
- Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels
- Goal 17. Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development

You can download and read the Agenda 2030 using the following links:

As you read this document you will notice that there is a lot of fluff and warm cozzies being portrayed as all the worlds problems are going to go away with the UN groups goals or

solutions – however – they fail to offer factual scientific data to back any of their claims. But you are expected to follow their science. The United Nations Inter Agency Task Team is in control of all the science edicts, technical and innovation. so it is really easy to see that this is a strategy to hand over citizens governments to these individuals for their own personal gain.

This is a closed group of corporations, banks, pharmaceutical companies, technical giants, uber rich individuals in control of the Agenda of the UN, WEF (World Economic Forum) and multiple other groups under the UN umbrella. They name themselves "Stakeholders" claiming that public - private - partnerships are all working together to do what is best for you. While, it instead is a format for world domination and total control by a handful of super rich people who like to call themselves "elite". You can access their documents via the link - <https://www.webforum.org/whitepapers>

This is a summary of how this group plans to achieve the 2030 goals.

- Carbon Taxation System give money for breathing the air, driving and any other activity.
- Social Credit System like Communist China, if you do something bad you are ostracized.
- Drones, facial recognition, and movement sensors (mobile phones) to track you like in a prison.
- Mandatory vaccinations - you no longer own your body.
- Rationing of food and energy - lights out at 8pm and you eat bugs.
- Patent on seeds and restricted access to heirloom food.
- Abolishment of genders and promotion of transhumanism.
- Ban of alternative medicine, herbs and treatments.
- Universal basic income for citizens who comply with these rules.
- Controlled fertility/reproduction (depopulation).
- Elimination of cash and replaced with digital currency with a back door for banks to control access.
- Rationing of other natural resource like water use and no access to wild areas.
- Abolishment of private property ("you'll own nothing and you will be happy").
- Fourth Industrial Revolution (Big Tech, IoT, AI, digital currencies) a Fascist New World Order.

Your assignment is to pick one or more of the goals in Agenda 2030 and write a one page report on alternatively how we can achieve the goal as an alternative to the strategy of the elite's plan to implementation. Elaborate as best you can on your idea. We must write our own Canadian Constituent Agenda ideas and formulate our own strategy on how to achieve the goals to replace these foreign corporate banker Agenda.

When you are done your assignment hand in to Kamloops A4C either at the kiosk in the park or email it to:
